AXEL — Background Art List (for the artist)

Every background image the game needs, what should be drawn in it, and whether it's already done. Based on the HTML prototype (**AXEL/html/game.html**) and the current scene plans (**plans/scenes/AXEL_SCENES_ARC*.md**).

Style reminder for all of these: black + red (**#ff0000**) palette, decayed/rotting school, dread and guilt mood. Not gory-scary, more "sad and wrong."

Already drawn (5): School Exterior, Corridor, Locker Hub, Cafeteria, the Map paper.

Everything else below still needs art.

Arc 1 — Intro

#	Scene	Status	What's in it
1.1	School Exterior	Drawn	Rotting wooden school building, grey sky, path leading up to it.
1.2	Corridor	Drawn	Inside hallway, moldy walls, lockers, leads toward the locker hub.

Arc 2 — Hub

#	Scene	Status	What's in it
2.1	Locker Hub	Drawn	Inside the player's locker: a photo of two people taped on the door, a paper map on the wall with 4 circled locations (basement blacked out).
—	Map paper (close-up)	Needed	The school map itself, shown full-screen when the player clicks the map paper. See @map.png
2.2	Basement Door	Needed	A heavy steel door with chains over it, dim spotlight.

Arc 3 — Cafeteria

#	Scene	Status	What's in it
3.1	Cafeteria	Drawn	Overturned tables, one ghostly figure sitting alone at an intact table, dark kitchen doorway in the background.
3.2	Cafeteria Memory *	Needed	Same table, but as a flashback — player sitting with their friend and a group of "popular kids" nearby. POV. See @cafeteria_table.png
3.3	Kitchen	Needed	Rotting kitchen. See @kitchen.png

Arc 4 — Backyard

#	Scene	Status	What's in it
4.1	Backyard	Needed	Back corner of the school, a wall with graffiti on it. See @backyard.png
4.1 (memory) *	Backyard flashback	(reuses Backyard art)	Player and friend (on side not seen fully) smoking together. First Person POV, close-up shot of a lit cigarette. See @cigarette.png

Arc 5 — Teachers' Lounge

#	Scene	Status	What's in it
5.1	Teachers' Lounge	Needed	Stale lounge room, a wall of key hooks — mostly empty, one rusty key still hanging. Needs **2 versions**: key still on hook / hook empty (after key is taken). See @teacher_key.png
5.2	Teachers' Lounge Memory *	Needed	Same room; different perspective, POV, police interview plays over it.
5.3	Key Wall	(currently unused in-game, low priority)	Close-up of the key hooks.
5.4	Key Pickup	(reuses "hook empty" art)	Same as lounge after-key art.

Arc 6 — Classroom

#	Scene	Status	What's in it
6.1	Classroom	Needed	Dusty classroom, sunbeams through windows, one desk set apart from the rest, chalkboard at the front. See @classroom.png
6.2	Classroom Desk *	Needed	A short 3-frame sequence on the same desk: **(a)** closed/empty desk, **(b)** a hand suddenly appears (jump moment), **(c)** desk settled again afterward. See @desk.png
6.3 / 6.4	Classroom Board	Needed	Close-up of the chalkboard with strange code/symbols written on it. Same art for both the puzzle and the "success" screen. See @board.png

Arc 7 — Basement

Currently the basement has **no art at all** in the game — it's just a black screen with text. The plan treats it as a flashlight-in-the-dark effect rather than painted scenes, but these are the visual beats if you want to draw them:

#	Scene	Status	What's in it
2.2	Basement Door	Needed (optional)	A heavy steel door with chains over it, dim spotlight.
7.3	Basement Stairs	Needed (optional)	Staircase descending into pitch black.
7.4 – 7.6	Basement Main Chamber	Needed (optional)	Dirt-floor chamber, a shovel glinting in the corner, only lit by a flashlight cone.
7.7	Basement Digging	(reuses Main Chamber art)	Same chamber, dirt kicking up as player digs.
7.8	Basement Corpse *	Needed	A mummified body in the dug-up ground, jaw dropped open. This is the final memory.

Arc 8 — Endings

Also currently no art — text-only screens. Optional mood art if you want to draw them:

#	Scene	What's in it
8.1 Ending 1	Player walking away from the school (or just stays black).	Not POV - character walking away from the school. See @school.png
8.2 Ending 2	Falling down the dark stairs.	Not POV
8.3 Ending 3	Basement glowing red, fire.	Not POV
8.4 Ending 4	Red/blue police lights.	Not POV
8.5 True Ending	Spirit rising peacefully out of the corpse.	POV
8.6 Epilogue	Backyard again — player and the ghost friend sitting together, smoking, one of them translucent.	Not POV

---

* Memory / flashback scenes — quick summary

These are the "remembering the past" moments (the ones that count toward the memory counter):

1. **Locker Hub** — first visit only, no dedicated art (reuses hub background).
2. **Cafeteria Memory** — flashback at the lunch table. *(needs new art)*
3. **Backyard Memory** — flashback with the friend + lighter reveal. *(reuses backyard art)*
4. **Teachers' Lounge Memory** — police-interview flashback. *(reuses lounge art, no new art)*
5. **Classroom Desk Memory** — the 3-frame desk/hand sequence. *(needs new art)*
6. **Basement Corpse** — final memory, digging up the body. *(needs new art)*

Priority order suggestion

If you want to draw in the order the player experiences them:

1. Cafeteria Memory (3.2)
2. Kitchen — dark + lit (3.3/3.4)
3. Backyard (4.1) + cigarette close-up (4.2)
4. Teachers' Lounge — key on hook + hook empty (5.1)
5. Classroom (6.1) + desk sequence (6.2) + board (6.3/6.4)
6. Basement door/stairs/chamber/corpse (7.1–7.8) — optional, currently effects-only
7. Endings (8.1–8.6) — optional, currently text-only
